June 2026 Volume 22 Number 6

Model T University

Many of us drove north to Waldo Wisconsin to participate at the Dairyland Model T Club "Model T University". Dairyland generally has two Universities per year. One in January and one during the summer months. Rich Edler, also a Milwaukee Club member, has hosted this summer event for quite of few years. Rich opens up his garage and provides an excellent lunch. This year we heard from Dave DeYoung regarding a few jigs he made for pouring babbitt in rod bearings. Rich Edler had purchased a Model T engine for \$50 and we started to pull it apart to determine what condition it was in. Rich also brought out his 1914 touring car, which has not run in a while, to stretch it's legs and see if there were any conditions that needed attention. Then, as always, Tod Wirth took up a spot in the corner of the garage to test and adjust ignition coils. I'm willing to bet that Tod has tested, adjusted and rebuilt more the 10,000 coils, and does an excellent job doing so. Around noon, the lunch came out. Fried chicken, potato salad, rolls, coleslaw, drinks and deserts were on the garage side board for us to enjoy. There was also a jar for money to help offset the cost of the lunch. We all had a good time, either working on projects of just sitting around talking Model T's. Go to Page 8 for more pictures.

Adam Doleshal & Our Host Rich Edler

Generator Testing P.4

- 1]— **Model T University** — Rich Edler's garage
- 4]— **I Did It**— More Generator Testing
